

## Instructions for Transferring Funds Electronically

You can transfer funds directly from your financial institution to one or more of your GET accounts through the US Bank Online Electronic Payment System. This service is provided by US Bank and they charge a \$1 per transaction fee to use the service. You do not have to bank with US Bank to use this service.

Before starting please read through the following information for important details that will help you successfully transfer funds.

### **\*\*\*\*IMPORTANT DETAILS – PLEASE READ\*\*\*\***

- You will start the process by logging into your GET account. The Electronic Payment System is hosted by US Bank and you'll need to disable your Pop-Up Blockers before starting the process. (Instructions will appear on your screen.)
- Carefully enter your bank routing and account numbers. A \$25 returned payment fee may be assessed on your GET account(s) if your financial institution returns your payment for any reason. Before using the Electronic Payment System, confirm that your financial institution will allow this type of transaction especially if you are using a Money Market or Savings Account.
- You can make a payment without registering with the US Bank Electronic Payment System, however, your electronic payment can only be tracked if you have REGISTERED.
- When REGISTERING you must create a USER ID and PASSWORD. You can choose to create them to be the same as your GET account Login ID and Password, but it does not necessarily have to be. Keep this information handy in case we need to research your payment.
- The Scheduled Payment Date: The US Bank Electronic Payment System requires a payment date that begins 1-3 business days from the date you are initiating the transaction. Or, you can select a date further into the future. You cannot schedule the payment to be the same day you are initiating it.
- You will likely receive confirmation that the electronic payment has cleared your financial institution within 1- 3 business days, but it may take GET from 5-7 business days to post the payment to your GET account. If your payment has cleared your financial institution, then you can be assured it has been received. Customer Service will not be able to confirm whether a payment has been received because of the amount of transactions coming through. We cannot search for individual payments.
- Before calling Customer Service, please check first with your financial institution to see if your payment has cleared. Log in to your account to view your GET account transaction history. You can also track your electronic payment through US Bank [here](#).
- If your payment has been misapplied, please send us a written request with your signature and tell us what needs to be corrected. Your request can be scanned and emailed to [GETInfo@wsac.wa.gov](mailto:GETInfo@wsac.wa.gov), faxed to 360.704.6200 or mailed to GET Program, PO Box 43450, Olympia WA 98504-3450.
